CHARGES PALMER
WITH INACTIVITY
ON PROFITEERING

Rep. Rodenburg States
Further Laws Are
Not Necessary.

By Associated Press Leased Wire
Washington, Aug. 22.—Criticizing President Wilson's "feeble efforts to establish some sort of connection between the present high cost of living and the league of nations," Representative Rodenburg, republican, Illinois, declared in the house today that amendments to the food control act to punish profiteering would not be necessary, "except for the inactivity and incompetency of the department of justice."

"In 1912," said Mr. Rodenburg, "President Wilson said the high cost of living was because of private understandings and the causes now he would have the country believe, are because the league of nations agreement hasn't been ratified. I appeal to the president to forget article ten and instruct the attorney general to solve the problem of living costs. He should quit dreaming about spiritual brotherhoods and devote his time to duties of the office to which he has been elected."

"In the past six years there has not been a single effort to bring profiteers to justice. Since President Wilson took the oath of office the department of justice has never once applied the Sherman anti-trust law."

Answering Rodenburg, Representative Young, democrat, Texas, said the republican majority in congress had "made no move to reduce the high cost of living until the president had urged action" and that now his suggestions and those of Attorney General Palmer had been accepted by the republicans as "sane and righteous conclusions."

HOUSE GETS FOOD BILL.
By Associated Press Leased Wire
Washington, Aug. 22.—Amendments to the war time food control act, extending the measure to peace times and putting "teeth in it," as requested by Attorney General Palmer, were before the house today. The act as amended by the agriculture committee and unanimously reported late yesterday was broadened to include wearing apparel, containers of food, feed or fertilizer and fuel oil; brings retailers within the scope of its provisions and provides a maximum penalty of two years imprisonment and a \$5,000 fine for profiteering. Farmers are exempted, the committee declaring there was an absence of evidence to show profiteering in their case.

11-Cent Sugar Assured.
An end to profiteering in sugar was believed assured with the announcement last night that active control of prices of this commodity had been resumed by the government through an agreement between the food administration and the department of justice under which licenses will be revoked by the former when it is shown by the latter that the dealers have been profiteering. A statement in connection with the announcement said sugar should reach the consumer at 11 cents a pound.

FRANKLIN AND
ASHTON BANKS
LOOK FOR MEN

Worthless Checks for
\$100 Passed By Ex-
Sailor.

Banking institutions at Franklin Grove and Ashton have offered a reward for the arrest of a stranger who was known in that vicinity as Frank L. Davis, a discharged sailor. Davis is wanted on a charge for passing \$100 worth of worthless checks, \$75 of this amount being cashed at the Franklin Grove bank and the remaining \$25 at the Ashton institution.

Davis and another stranger are said to have come to Ashton five weeks ago and secured positions working on farms. They soon became quite popular and when leaving the farms where they were employed to go to town, made a habit of wearing their sailor uniforms. Davis went to Franklin Grove Wednesday and passed a check for \$75, said to be worthless and then to the Ashton bank where another \$25 check was passed successfully. He then left for parts unknown. It is reported that the pair had contemplated stealing an automobile from near Ashton but no cars have been reported missing.

C. H. Connelly, missing aviators had been found by a Mexican cavalry patrol.

Colonel Hanlon later declared no word had been received at Rockwell Field concerning either pilot.

RENEW SEARCH FOR FLYERS.

By Associated Press Leased Wire
San Diego, Calif., Aug. 22.—Army aviators from Rockwell Field took to the air early today in a fresh attempt to solve the mystery of the disappearance Wednesday, near Jacumba, Mex., of Lieutenants Frederick B. Waterhouse and C. H. Connelly of the ninth aero squadron patrol and their big De Havilland plane.

This announcement was made by Col. A. K. Hanlon, commanding at Rockwell Field, after the night had passed without any tidings of the missing fliers.

Fifteen aviators from the field, aided by details of Mexican troops ordered to the search by Governor Staban Cantu of lower California, yesterday vainly combed the timbered hills near Jacumba where the lost fliers are reported to have been seen last on their way here from Yuma, Ariz.

Every assistance was given by the Mexican soldiers, acting under instructions from Governor Cantu, who always has maintained the most friendly relations with American along the border. Lieut. Waterhouse, pilot of the missing plane, is from Weiser, Idaho. He is 22 years old and enlisted as a private in the aviation service in December, 1916. The address of Lieut. Connelly, observer, is San Diego.

RUSSIAN SOVIET
ARMY ATTACKED
ON EVERY FLANK

Successes of Anti-Reds
Attract Attention of
Peace Meet.

By Associated Press Leased Wire
Paris, Thursday, Aug. 21.—(Delayed.)—The successful advance of General Denikine in southern Russia, taken in connection with the British naval attack on Kronstadt and the movement of the Poles and the northwestern Russian army against the bolsheviks, has attracted much attention in peace conference circles. The Russian political committee in Paris hopes that the general anti-bolshevik movement will be successful before winter in spite of the reverse suffered by the forces of Admiral Kolchak in the east.

According to messages received by the committee, the Denikine forces are marching on Kiev after having taken Kherson and Nikolayev. East of Kiev they have occupied virtually all the important railway centers as far as the Volga, a distance of about 650 miles. Along the Volga they are moving north toward Saratov, having captured Zolotu. Denikine now controls a great section of European Russia and holds the sources of the chief coal and oil supplies.

Blockade is Planned.
The peace conference repeatedly has considered plans for preventing the bolsheviks from getting supplies without establishing an actual blockade against Petrograd. There is much objection to blockading a country when war has not been declared. No plan has been devised which seems to meet the situation but the blockade actually exists because of the naval activity in the Baltic sea, designed to protect the Baltic states against the bolshevik fleet. Cold weather, however, will shortly blockade Petrograd from the sea.

Wolfe Stayed Ten
Minutes with Hill

Many patrons of the athletic show at the Moose Mid-summer Carnival last evening found much to interest them in the wrestling match between Hill, the Heth Shows champion wrestler, and Dan Wolfe, of this city, for Dan accepted the carnival wrestler's defy for anyone in Dixon to stay ten minutes with him without a fall, and at the end of the allotted time a great cheer went up for the Dixon man, for not only had Hill failed to put him down, but at no time had he put Wolfe in danger.

The carnival company will close its engagement here tomorrow evening and it is probable that either tonight or tomorrow evening Wolfe will tackle Hill in another match of fifteen minutes duration.

The shows are all drawing well and no doubt tonight and Saturday night will find greatly increased crowds on the grounds.

SECRET TREATY
CAUSED WILSON
TO HELP JAPAN

Allied Agreement with
Japanese Upheld in
Shantung Award.

By Associated Press Leased Wire
Washington, Aug. 22.—A first hand story of the negotiations which resulted in the treaty provision giving Japan control in Shantung province, China, was told to the senate foreign relations committee today by Professor E. T. Williams, formerly the state department's expert on far eastern affairs, who acted as a technical adviser to the American peace delegates.

Professor Williams said he had "objected very strongly" to the Shantung settlement, but that his resignation from the peace commission had not been due to his opposition.

Choose Between Two Courses

On April 22, the witness said, President Wilson sent for him and asked him which of the proposed alternatives would be less injurious to China—the transfer of the German Shantung rights to Japan or insistence on the execution of Japan's treaty with China growing out of the famous 21 demands of 1915.

"I replied," continued Professor Williams, "that I hoped neither course would be found necessary. The president said that unfortunately Great Britain and France were bound by certain engagements with Japan to support Japan's claims in Shantung and that Lloyd George said he would bow only on the consideration that the 1915 treaty was executed."

Must Recognize Treaty

"The president added that the war seemed to have been fought to establish the sanctity of treaties and while some of them were unconscionable it looked as though it would be necessary to recognize them."

The witness said he suggested that since the 1915 treaty was exacted by force it ought not to be binding, but that the president replied Japan might not be willing to recognize that they were made by force. Professor Williams then suggested that the treaty have a blanket provision that all German property in China should be turned over to China and that any rights taken from Germany by Japan should be returned to China within a year.

Later the expert advisers of the British, French and American delegations joined in a memorandum saying that transfer of the German Shantung

POLISH TROOPS

Soviet Army is Being

Warsaw Announces.

By Associated Press Leased Wire
Copenhagen, Aug. 22.—Polish troops have administered a crushing defeat on the bolshevik and the soviet forces are being pursued everywhere, the Polish general staff at Warsaw announces.

The fortress of Rovno, in Volhynia northeast of Dubno has been captured by the Poles after hard fighting.

East of Minsk the Poles have reached the line of Ihumen-Dortyn.

Apparently the Poles are advancing north and south of the Pripiet marshes, east of Brest-Litovsk. Ihumen is forty miles east of Minsk. Rovno is one of the triangle of fortresses in southwestern Volhynia. The other two, Lutsk and Dubno, have been captured by the Poles within the last few weeks.

General Petlura, the Ukrainian leader, and General Denikine, the anti-bolshevik commander in southern Russia, continue their offenses successfully, according to reports received in London by prominent Poles. The advance of the Poles puts the bolshevik front in action from Minsk to northeast of Odessa. A bolshevik wireless communication received in London yesterday said soviet troops were retiring before the Denikine forces in the regions of Zubna and Morenovoe.

NO PROFITEERING
IN RETAIL MEAT,
DEALER ASSERTS

St. Louis Man Declares
No Retailers Try
to Gouge Us.

By Associated Press Leased Wire
Washington, D. C., Aug. 22.—People ought to be satisfied with present food prices; there isn't any profiteering in the retail meat and grocery business, and consumers want to pay high prices, Thomas Dunn, a St. Louis meat dealer, told the senate agriculture committee today at the hearing on legislation to control the packing industry.

"Retailers are hard working people eating themselves what other people won't use," Dunn said. "There isn't a retail food profiteer in the country."

"Everybody knows about food prices. Your wives and daughters can't be fooled into paying more."

"Well, do you think they are satisfied with present food prices?" asked Senator Kenyon, republican, Iowa.

Ought To Be Satisfied.

"If they are not they ought to be," Dunn told him. "The trouble is they want to pay more."

"They rather like high prices, then," Senator Kenyon continued.

"They do. The working people are the worst offenders. They absolutely won't have anything but the finest and best. The only good this investigation can do is to make these people think, and get the food ideas about food out of their heads."

The five big packers are not monopolizing anything, or "robbing anybody," and needed no regulation, Dunn said.

"I understand most of this committee are farmers," Dunn continued. "I want to learn something. A bullock's carcass costs \$70 more today than it did five years ago. What I want to know is who gets that extra \$70. The farmer? I'm the gink that pays them \$70 and I'd like to know."

"It isn't the packer, I'm sure, because I've seen his books, and because if they were getting it Rockefeller and all those rich men would quit the foolish business they are in and go to packing."

Dunn's own conclusion about it, he said, was that the farmer got the \$70.

WILL NOT WITHDRAW TROOPS.

By Associated Press Leased Wire
Marfa, Tex., Aug. 22.—The punitive expedition is making progress in Mexico pursuing the Mexican bandits who held Lieutenants Harold G. Peterson and Paul H. Davis, army aviators, for ransom, according to official reports received late last night from the field in Mexico. Reports that the expedition would be withdrawn at once were denied officially last night and there is no indication today of planning to withdraw the troops. No definite time fixed for the withdrawal but it is understood that the plan of the campaign includes at least another week's search through the mountains for the Renteria gang.

Number of Horses Lost.

The soldiers scouted the surrounding country yesterday in separate detachments but concentrated the camp at dark. The trails are so rocky and steep that the pack mules carrying supplies fell over the cliffs and several were lost. A number of horses of Major C. C. Smith's command fell off the trail yesterday but none of the horses' riders were injured.

Four Bandits Killed.

Four bandits were killed Wednesday in a mountain fortress where they had built a blockhouse as a rendezvous. This brings the total to five known to have been killed by the Americans with a possibility of a sixth one, a bandit having been seen to fall from his horse when aviators returned bandit fire. The second riderless horse has been seen, whose rider may have been killed. The troops are pursuing the two who escaped into the mountains from the blockhouse.

Archduke Joseph is Expected to Resign Hungarian Leadership

By Associated Press Leased Wire
Paris, Aug. 22.—The supreme council of the peace conference expects to hear of the resignation of Archduke as head of the Hungarian government within a few days. Apparently the council is of the opinion that it not necessary to take any more drastic steps than those outlined in the instructions sent to the enter-allied military mission in Budapest on Tuesday and Wednesday for delivery to the Hungarian government.

In the instructions the council set forth that it not regard the government of Archduke Joseph as in any sense a popular one and declared it would not deal with it.

SUNSHINE CLASS PICNIC—

One of three picnics held during the season by the members of the Sunshine Class of St. Paul's Lutheran church in lieu of the regular monthly evening socials, the picnic of Thursday afternoon at Lowell Park proved very delightful. Many took the boat Dixon at 2 o'clock for the park while others drove to the park in their cars.

As usual diversity of tastes found ample opportunity for expression in the activities, or lack of activity as the choice might be, the park offers. The quiet group watched the baskets and prepared the tables for supper, another group frequented the beach, donning their bathing suits for a swim, while yet another company walked about the park, following all the roads and paths to the farthestmost bounds of the grounds visiting the shelters and enjoying the views from the many vantage points.

At 5 o'clock all gathered near the beach where two long tables were spread with the supper good things which soon disappeared before the onslaught of hearty appetites. Ice cream was served as the dessert.

A business session and a social evening followed the supper, the picnicers later resorting to boat or automobiles for the homeward trip. This was the last of the season's picnics, the customary social and business evenings to begin with next month's meeting.

Tomorrow most of these return to their homes and in their place will come other campers. Among these will be Mr. and Mrs. H. Wright and daughter and Mr. and Mrs. Clinton and two children, of Mendota.

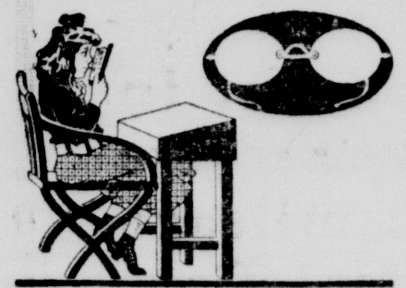

SURPRISED FATHER—

THE JUDGE AND HIS SOUVENIR

A trial was proceeding and one of the
yawlers took up the examination of a
witness just called.

"We are to understand, Mr. Jones,
that—"

"I object, your honor," broke in the
opposing lawyer "upon the ground that
the witness has given no testimony and
we have no right to understand any-
thing about anything which has not yet
been testified."

"If the honorable gentlemen will let
me examine the witness," answered
the first lawyer pettishly, "we will
quickly learn what the witness under-
stands or rather understand what the
witness learns, or, rather, I should say,
get at the understanding of the wit-
ness' understanding, that is to say—"

A tall, loose-jointed, fierce-moustach-
ed jurymen lifted himself from his seat
and addressed the court.

"Judge," he said, "I am a crack shot
and have my good, old forty-four with
me, and with your permission I will rid
the earth of these encumbering petti-
foggers, and then we can hurry up and
get justice done."

"Member of the jury," answered the
court, "I can inform you privately that
I would be glad to have you shover up
on the republic the benefits you sug-
gest, but in my official capacity I am
compelled to rebuke you and warn you
solemnly upon pain of severe punish-
ment, not to interfere thus unseemingly
in the hearing of this case. Mr. Sher-
iff, you will please disarm the jury-
man."

In the fullness of time the suit strag-
gled to its end, the jury was dismissed
and the fees were collected—the same
amounting to seven fold the money in-
volved in the action. The picturesque
jurymen called upon the sheriff for his
hardware, and was told that it had been
claimed by the judge as a souvenir of
the most hopeful sign which had been
vouchsafed him in his career.

Champ Clark says the Republican
party is responsible for the high cost of
living. And Champ is right. The Re-
publican party precipitated the whole
trouble when it neglected to win in
1916.

Wealth is more dress. We prefer to
die poor, as Andrew Carnegie did. He
was down to the last fifty million when
the grim reaper overtook him.

Rich Bachelor Wants Wife

"Many people have blamed me for
not getting married. Since childhood I
have suffered from stomach and liver
trouble, never being able to get any
medicine or doctor to help me. Now
that Mayr's Wonderful Remedy has en-
tirely cured me, I am anxious to get a
wife." It is a simple, harmless prepa-
ration, that removes the catarrhal mu-
cus from the intestinal tract and allays
the inflammation which causes practi-
cally all stomach, liver and intestinal
ailments, including appendicitis. One
dose will convince or money refunded.

SECRET TREATY CAUSED WILSON TO HELP JAPAN

(Continued from Page 1.)

rights to Japan would be the more de-
sirable of the two courses suggested.
Professors Williams and McClay, a
British expert joined in a memorandum
saying China ought not to be compelled
to accept either alternative.

14 Points Not Applicable
"I asked the president," said Profes-
sor Williams, "whether the proposed set-
tlement was not contrary to his four-
teen points and he said that unfortun-
ately he did not think there was any-
thing in the fourteen points exactly
covering the case. Later I called atten-
tion to his Mount Vernon address
which seemed to cover the matter."

"Did the president make any re-
sponse?" asked Senator Johnson, re-
publican, California.

"I only received a note from the pres-
ident's secretary thanking me for the
memorandum."
Two days later Professor Williams
said he was informed of the decision
taken, adding that Dr. S. K. Hornbeck,
the other American adviser on far east-
ern affairs had concurred in objecting
but that they did not file a protest af-
ter the decision was announced.

Quit to Serve College
Asked whether his resignation was
"due to any particular reason, the wit-
ness replied: "No, my leave of absence
from the University of California was
about to expire. I would have come
home in any case."

In reply to a question as to what ef-
fect the Shantung decision might have
in China, Professor Williams said:

"I felt it would raise a strong protest
from China and was tending to strife
rather than to peace. I felt it was also
injurious to our own interests as China
had entered the war under our advice
and that by the transfer of these rights
to Japan we would lose prestige in the
far east."

St. Louis Landlords Ask Exorbitant Rent

By Associated Press Leased Wire
St. Louis, Mo., Aug. 22.—Property
owners who are taking advantage of
the dearth of buildings in St. Louis by
extorting exorbitant rentals will be
compelled to pay greatly increased tax-
es, Assessor Wollbrink announced.

The assessor, in a statement, referred
to the landlords as "rent profiteers"
and said his deputies had learned that
some landlords had raised rental 50
and 60 per cent recently. The deputies
are canvassing homes to ascertain which
property holders have raised rents.

When rentals considered extortionate
are discovered, assessments against the
property owners will be made on a 100
per cent valuation and no exemptions
will be granted, the assessor said. At
present assessments usually are made
on a 74 per cent valuation, the assessor
explained.

Name Candidates for Circuit Judge. Freeport, Sept. 18

Freeport, Ill., Aug. 22.—The date of
the republican convention to nominate
the candidate to fill the vacancy in the
bench of the Fifteenth judicial circuit,
caused by the death of the late James
S. Baume of Galena, will probably be
September 18th, the convention to take
place in this city.

The exact date has not been definitely
decided upon, however, the matter was
taken up yesterday afternoon by those
interested and they tentatively decided
upon the above date. There has been
several amendments made to the pri-
mary law relative to nominations and
elections, none of the revised laws on
this subject have been received in this
city, but basing their opinion on the
old law and what has been stated con-
cerning the new law the proper time
to hold the convention would be Sept.
18. It was also stated that the number
of delegates would be determined by the
population of each county, one delegate
for a certain number of population.

As soon as several questions have
been settled the call of the convention
will be made and delegates selected.

Democratic Convention.

The democratic party has not thus
far decided upon a date, but it was
stated that it would be held in Free-
port probably on September 18th. As
far as is known there are no democratic
candidates for the office, but it was
stated that an effort would be made to
secure a candidate.

Many Wild Cat Firms Driven From State

By Associated Press Leased Wire
Springfield, Ill., Aug. 22.—Since the
new "blue sky" law, passed by the fifty-
first general assembly has been opera-
tive dating from July 1, last, many
"wild cat" concerns have been driven
from the state, according to the securi-
ties department of the secretary of state's
office.

A total of 139 applications were re-
ceived from corporations, of which only
44 were deemed by the department meri-
torious enough to be filed by the secre-
tary of state's office. The other appli-
cations were returned for correction,
held up for further investigation or

were withdrawn by the companies
themselves to go elsewhere, it was stat-
ed.

The new law which supercedes a less
stringent one, provides a penitentiary
sentence for any one convicted of the
sale of securities with the knowledge
that the issue is insolvent.

Securities are divided by the act into
four classifications, the first two being
"gilt edged" and sound beyond ques-
tion. The third consists of securities
with an established income over a pe-
riod of two years, and the third are
those labeled "speculative securities."

ing her mother.

Chicago Children in Outing in Country

By Associated Press Leased Wire

Springfield, Ill., Aug. 22.—Fifty-one
children from the congested west side
of Chicago were given a two weeks
outing in the country at Virden and
Girard, south of this city, recently
through the efforts of Rev. W. J. Hor-
ner, pastor of the Church of the
Brethren in Chicago.

Some of the "kids" it was said, nev-
er had seen an open field. The chil-
dren were cared for in large part in the
homes of farmers.

On their return to Chicago, the trip
was planned through Springfield and
the youngsters were taken to visit Lin-
coln's tomb in Oak Ridge cemetery.

WAR HISTORY OF COUNTY WILL BE READY OCTOBER 1

Official Record Gives Complete Account of All Activities.

Lee County's official war history, compiled under the direction of Lee County State Council of Defense, will be ready for distribution soon after October 1.

A complete record of the part the county played in great war, this history will contain about 300 pages, beautifully printed and in cloth binding. It will contain 28 group pictures besides 41 pictures of dead soldiers of the county.

Each township will be given a chapter in which to record the history of the part it played. These chapters will be written by persons closely affiliated with war activities within the township.

The work of the various county committees, having in charge the general activities, will be fully described by the chairmen, in chapters devoted to each branch.

A separate chapter will be devoted to

Battery C, 123rd field artillery, formerly Company G of the Sixth Illinois. Capt. Lloyd Lewis will write this chapter.

Another chapter will contain letters written by soldiers and sailors while in service, L. W. Mitchell, P. M. James and P. M. Banker will select these letters.

The final chapter in the volume will contain the names of all men in military and naval service, and of men and women in the Red Cross, Y. M. C. A., K. C. and other service.

Daniels is Welcomed By Hawaiian People

By Associated Press Leased Wire

Aboard the U. S. S. New York, Honolulu Harbor, Wednesday, Aug. 20. (Delayed)—Secretary of the Navy Daniels and his official party of officers and men of the dreadnaught New York arriving here today were treated with the hospitality that long has distinguished the Hawaiian islands.

The New York and four destroyers

were tied alongside their piers almost in the center of the city.

On Waikiki beach the great dreadnaught was met by scores of small craft including outrigger canoes, motor launches, sail and row boats which accompanied the great ship into the harbor.

On the dock were Governor McCarthy, the mayor and other city and territorial dignitaries. Native girls of Hawaiian, Chinese, Japanese, Filipino, white and American parentage were there also carrying gaily colored leis, the necklace of Hawaii, which they threw aboard the battleship.

From the time he went down the New York's gangplank Secretary Daniels' time was fully occupied. From the ship he was taken to a hotel at Waikiki Beach where he was received with all the pomp of a visiting monarch, according to the old Hawaiian custom, by the sons and daughters of Hawaiian warriors.

MANY HEARD CONCERT

The concert by the Dixon Municipal band at the John Dixon park last evening was very largely attended and the fine program given under the direction of Prof. W. H. Smith was pleasing to all.

Soldiers Wear Silver Stars Without Right

By Associated Press Leased Wire

Washington, Aug. 22.—The attention of the war department was called today to the fact that discharged soldiers are wearing silver stars on victory ribbons in some cases under conditions not justified by the regulations. An order was issued pointing out that these stars must not be worn unless the soldier had been cited in orders from his headquarters for gallantry in action and that if other decorations had been awarded for the same citation the star could not be legally used.

Having Vacation—Dr. W. C. McWethy

is having a vacation from his office and is spending it in short motor trips throughout this part of the state. Yesterday he and his family motored to Whiteside county.

Cemetery Gate Closed—Commissioner George Campbell announced today that the west gate to Oakwood cemetery will be closed for the remainder of the week and over Sunday to allow the completion of the concrete pavement in that part of the city. The north and south gates will be open, however, for those who desire to drive into the cemetery.

Good news for boys and their Parents

YOU are going to be able to get the boys' clothes this fall made by Hart Schaffner & Marx. For a long time we clothing merchants generally have hoped that these makers of fine clothes for men would produce the same kind of clothes for boys; and now they've done it.

You'll see now what a difference it makes in looks and in service to have clothes made from all-wool fabrics, made by the highest skill in tailoring, the styles designed by the best artists in the business.

We can supply the boys of this community now with the best clothes made; they're not low priced in one sense; but they're such high quality that they're real economy.

SANDRA THE JEALOUS

By JANE PHELPS.

EVERETT INVITES EDMONDS TO SUPPER.

CHAPTER LIII.

"Have you quite finished?" Everett's voice was very calm, dangerously so. "No, I haven't! I have been afraid to tell you things, but as long as no one knew how I felt, I tried to stand it. I didn't want Mother to know or I should have written her to come. But she didn't want me to marry you—said you were too old to understand a young girl like me. But I thought I knew more than she did. Now that Rose will go home and tell how cruel you are to me, I am not going to pretend any longer."

"Pretend what?"

"Anything," I replied pettishly.

"You mean pretend to care for me when you do not?"

"No—I didn't mean—that. I meant pretend to be contented and satisfied. If you were going to treat me like a child why didn't you adopt me instead of marrying me?" When I said that the tiniest bit of a smile played about his lips for just a moment—then he seemed all suddenly to look old and tired.

"Go and dress." He spoke exactly as if we had not been talking for half an hour. "I have tickets for a show—a musical comedy. Wear your sapphires, the white dress if you wish. We shall go to supper with some friends of mine after the theater. I rose at once and left the room. Had he bought tickets to make up for his brutality to me before Rose? That was what I called it in my thoughts—brutality.

I was nearly dressed when he came up.

"You look very nice," he said, then: "There seems to be something unfashioned. Turn around. Yes, here it is—Hetty was very careless. He adjusted the hook, then bent down and pressed his lips to my bare shoulder.

"Don't blame Hetty," I replied as

carelessly as I could, altho my voice trembled a little because of the unexpectedness of his caress. "I didn't call her. I dressed myself."

"No wonder one hook escaped you. I should have thought it impossible to do yourself up." Then: "Why didn't you call Hetty?"

"I didn't feel like speaking to her—or to anyone."

"Have her look you over after dinner. I should dislike very much to have you improperly fastened."

I went downstairs while he dressed. I felt queer, uneasy. Why had he stopped talking to me so suddenly after my outburst. Would he ever forgive me? Then I thought of the kiss and felt a bit comforted.

"I'd love you dearly all the time, Everett, if you were nice to me," I said to myself. "I love you anyway—I can't help it." I did. I really think that I loved him in spite of everything. I was so terribly proud of him—always had been. Now one source of pride had been eliminated—that Rose should think him wonderful and envy me. But when he came down and sat opposite me at dinner, he looked so distinguished, so handsome, that my poor little bruised heart beat faster with pride of ownership.

The play was delightful. In spite of my emotional exhibit of the afternoon, I laughed heartily; Everett too often joining me. Contrary to his custom, he asked to be excused during intermission and remained until after the curtain had gone up. He had never done so before, I was piqued. My jealous fears were aroused too. Whom had he gone out to see? Irma Barton, perhaps.

"I saw Mr. Edmonds in the audience, and I asked him to join us at supper," he told me during the next wait, a short one.

"You—what?" I couldn't believe I had heard aright.

"I asked Mr. Edmonds to join us at

supper. You aren't displeased I hope?"

"No—it will be very nice," I said demurely, my heart beating wildly both because of the act and because I should be with Barrett—able to talk with him.

"He is young and entertaining. These people I have to meet may not prove interesting to you."

"You are very thoughtful," I felt like saying "for once," but restrained myself. I had said enough—far more than I ever dreamed I should dare to. Too much probably. I felt sure Everett would make me suffer for it in the end—how much I could not imagine.

Had I dreamed that Everett had invited Barrett purposely to watch me and see if I were interested in him, I should not have greeted him with such frank pleasure when he joined us in the lobby after the show.

DOCTOR TELLS HOW TO DETECT HARMFUL EFFECTS OF TOBACCO

Try These Simple Tests

New York: Doctor Conner, formerly of Johns Hopkins hospital, says: Many men who smoke, chew or snuff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would soon get well if they would only stop the use of tobacco. The chief habit forming principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer with heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests. Read aloud one full page from a book. If, in the course of reading your voice becomes muffled, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke walk up three flights of stairs at a reg-

ular pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or snuff to quiet your nerves, you are a slave to the tobacco habit, and are positively poisoning yourself with the deadly drug, nicotine. In either case you have just two alternatives—keep on with the self-poisoning process irrespective of the dangers and suffer the consequences, or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco, the craving will have left you. With the nicotine poison out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including the Public Drug Co.

Order Your Hudson Now For Later Delivery

Buyers Know the Advantages of Anticipating Their Wants With This the Largest Selling Fine Car

Constantly for four years Super-Six sales have exceeded those of any other fine car.

Buyers have had to wait a month or more during the selling seasons before they could get delivery. On some models at this writing, we are far behind orders. Yet factory production was never as large.

Thousands are driving less desirable cars that were accepted because they could not get delivery of a Hudson. Many frankly express their regret that they had not ordered a Hudson early enough to assure delivery in time to meet their needs.

Can There Be Any Hesitancy In Your Preference?

Four years have given universal recognition to the Super-Six. The patented principle in its motor, ended destructive engine vibration and added 72% to the power without increased weight or size.

That motor was developed by Hudson and it is exclusively Hudson. In the present model are the refinements resulting from \$60,000 cars in service.

And then there are its official records of the most trying tests. No other car ever so established itself.

Some, at first, may have doubted the value of such proofs as were made on the speedway and in trans-continental racing so far as they relate to the type of car that would meet ordinary service. But no one now questions the importance of those records.

The fastest mile for a stock chassis was not established as a mark for Hudson owners to aim at. Nor was the twenty-four hour record of 1819 miles set as something that should be attempted by every Super-Six.

Likewise, Hudson racing cars did their part to prove the very qualities most desirable in an automobile used for individual transportation. The one most essential quality in an automobile is its reliability. No one ever questions Hudson's right to first place in that particular.

So, Too, Is Its Style Equally Distinct

The boulevards of the great cities show what is most wanted in body lines and general equipment. Can you find more beautiful cars anywhere than are the Hudsons?

They set the vogue. Hudsons forecast the trend of motor car design. As a result a one or two year old Hudson has the same general lines as the current models of most other makes.

There can be no disappointment over the beauty of the Super-Six, regardless of the model you select.

The Wisdom of Buying Now

With these evidences is there any good reason why you should not now place your order for a Hudson?

You know the car you will get. It merits your implicit confidence.

Think of the thousands who this year have had to forego the pleasure of owning a Hudson, just because they put off ordering. Vacations planned to be taken in touring a Super-Six had to be changed.

All the world is crying for automobiles. The demand can not soon be filled.

Hudson, as the largest selling fine car, must as a matter of right continue the first choice. Only those who place their orders in advance of their needs can be sure of getting the car they want.

A Cut—Skin Abrasion—Then You Need Pure, Safe Soap

A tiny cut in itself doesn't amount to anything. Trouble, if there is trouble, arises from infection caused by some foreign substance lodging in the wound.

Remmo Sterilized Soap reduces such a possibility. Remmo is made exclusively of the best soap ingredients—and each ingredient is sterilized at 198 degrees Fahrenheit—rendered absolutely pure.

Remmo possesses a wonderful power of penetration—the pure cleansing, sterilized lather works down into cuts, wounds and the tiny pores of the skin dissolving and entirely removing all dirt and accumulations injurious to the skin and often endangering health itself.

Remmo Sterilized Toilet Soap is not an emergency soap—not a medicated soap—but an everyday all-purpose toilet soap absolutely pure and best suited to the needs of cleanliness, protection against infection and promotion of skin beauty.

You must use a toilet soap. Why not use the most beneficial? It costs no more.

CORN IS HIGHER TODAY AS BULLS ASSUME CONTROL

By Associated Press Leased Wire
Chicago, Aug. 22.—Less bearish sentiment was reflected today in the corn market prices being moderately higher at the outset and increasing somewhat in the early trading the distant months showing relatively greater strength. Offerings were rather limited and found ready purchasers. Recessionary momentary and fractional. A higher stock market and increased prices for live hogs were contributing factors. Opening figures were unchanged to 1/4c higher with Sept. at 1.85 to 1.85 1/4 and Dec. 1.45 1/4 to 1.46 1/4.
Oats moved up with corn commission houses being buyers. Fluctuations were in more narrow limits than in the major grain but a strong undertone was observed in the early trading. Opening prices were 1/4c to 1/2c higher all deliveries sharing in the advance, with Sept. at 73 1/4 and Dec. at 75 1/4 to 76 1/4.
Provisions started 10c to 60c higher, influenced by the live hog advance. Offerings were light and trade was moderate. Pork showed the greatest advance.
Sentiment later was somewhat mixed and profit taking prevented the bulls from maintaining the best prices. Toward the end of the session prices sagged under pressure. The close was weak unchanged to 1c lower. Sept. showing the greatest decline. Final figures were Sept. 1.84 to 1.84 1/4 and Dec. 1.44 1/4 to 1.45 1/4.
